

BRAND ID

Visual guidelines for BOUND Protocol Brand.

THE LOGO

The Bound Protocol logo is built around the infinity symbol, representing continuity, balance, and long-term value creation, core principles in decentralized finance and modern investment systems.

The infinite loop reflects the bound relationship between capital, technology, and strategy, illustrating how value is not static, but continuously optimized through smart protocols, automation, and compounding mechanisms.

The internal geometric pattern symbolizes structure, precision, and mathematical integrity, essential elements in blockchain architecture and investment logic. It reinforces the idea that behind innovation lies a solid, well-engineered foundation.

The purple color palette conveys vision, sophistication, and trust, positioning Bound Protocol as a forward-thinking platform operating at the intersection of finance, technology, and innovation.

Overall, the logo expresses Bound Protocol's mission: to create a secure, scalable, and perpetual investment ecosystem, where capital is intelligently bound into systems designed for sustainable growth.

ALTARNATE LOGO

The Alternate Logo of Bound Protocol combines the core symbol with the project's typography and full name, reinforcing brand recognition and clarity in communication.

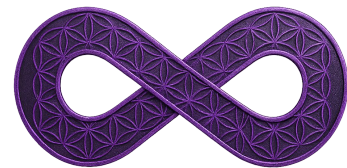

This version is used in contexts where explicit brand identification is essential, especially in first-touch interactions or formal environments where the symbol alone may not yet be fully recognized.

The inclusion of the name Bound Protocol ensures immediate association between the visual identity and the platform, while maintaining consistency with the primary logo's values of continuity, structure, and long-term vision.

Why it exists:

The alternate logo strengthens brand authority and trust by pairing the symbolic identity with the project name, ensuring recognition, professionalism, and coherence across all communication channels.

It acts as a bridge between symbolic expression and verbal identity, making Bound Protocol instantly identifiable while preserving its strong visual signature.

BOUND PROTOCOL

BOUND PROTOCOL

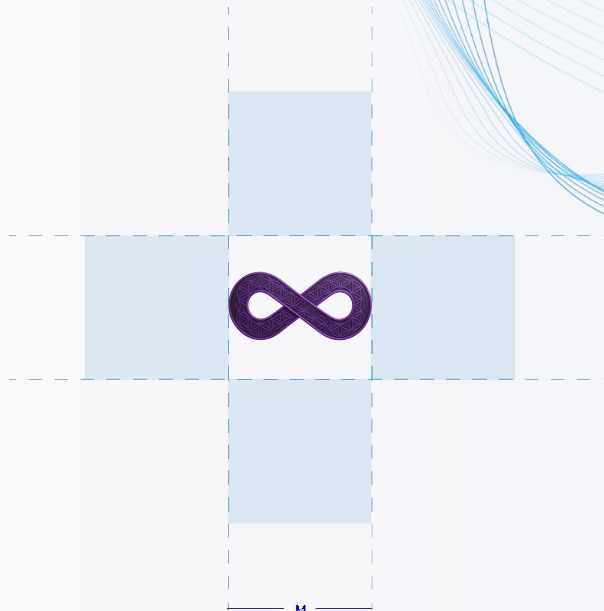

LOGO MINIMUM CLEARSPACE

Clear space is the term for a specific amount of space that a logo must have on all sides, no matter where it is used. The reason for clear space is to ensure that a logo maximizes visibility and impact.

In order for the Bound Protocol® logo to have clear visibility, it requires a specific amount of space around it – this must always be respected.

For the Bound Protocol® logo, the minimum clear space is determined by the width of the icon. (M) in two directions: left, and right.

This distance is used when placing the Logo together with partner logos and in graphic layouts featuring elements that are placed in the proximity of the Bound Protocol® mark.

LOGO PLACEMENT

When placing the Bound Protocol® Logo in a layout, our agreed positions on the page are the following:

- Top Left corner.
- Bottom Right corner.
- Center of the layout.

COLORS

Main Color

Our main color is an electric purple, a combination between purple* and blue*, a powerful color meant to show boldness, innovation and trust.

It is used especially in our titles, also in backgrounds and graphic elements (icons, illustrations, typography, etc.).

**Purple represents technology, innovation, blockchain*

**Blue represents trust and security.*

Primary colors

The Bound Protocol® primary colors are carefully selected for the purpose of representing our visual direction.

The primary black is used especially in typography, logos secondary color and backgrounds. In backgrounds has the purpose of helping other colors stand out.

The primary white is used only in backgrounds. It helps the design to be cleaner.

The primary blue represents trust, security and calmness. Is used in backgrounds, graphic elements (icons, illustrations, typography, etc.)

The primary green inspires refreshment and peace, rest and security. It is a powerful color meant to show boldness. Best practice - used on dark background and near the Bound Protocol® Purple. Is used in backgrounds, graphic elements (icons, illustrations, typography, etc.)

Icons

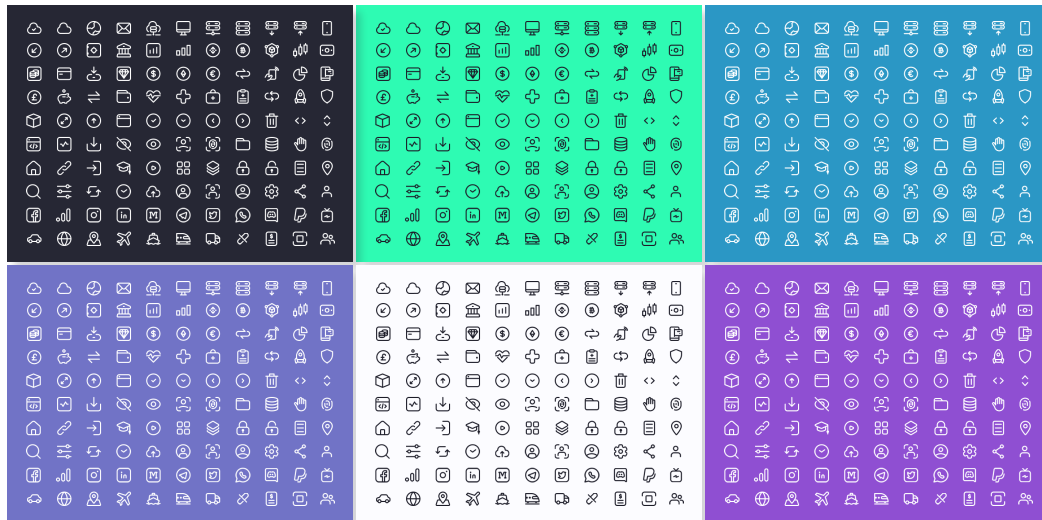

Icons Types

We use two different types of icons, fill and stroke.

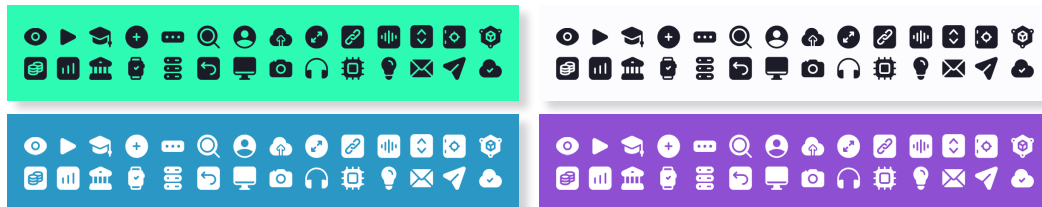

The purpose of the two styles is to give us creative freedom and diversity in design.

Our icons are carefully selected to be simple, minimalist and easy to understand.

Imagery

Our main method for visual communication is photography.

Those are carefully selected to best describe our message to the world and to be as relatable as possible.

The purpose is to humanize our image in media and to make the audience feel more comfortable with our brand.

Team/Collaboration

Photographs with people working together in an office, meeting room, outside office building.

Partnerships

Photographs with people shaking hands, smiling, that look confident in a future collaboration.

Learning

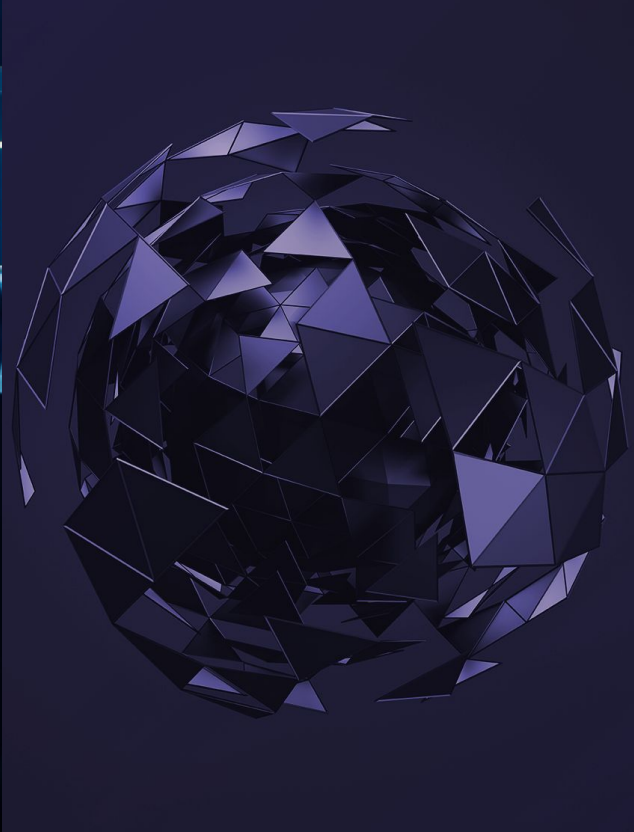

Photographs with people learning together.

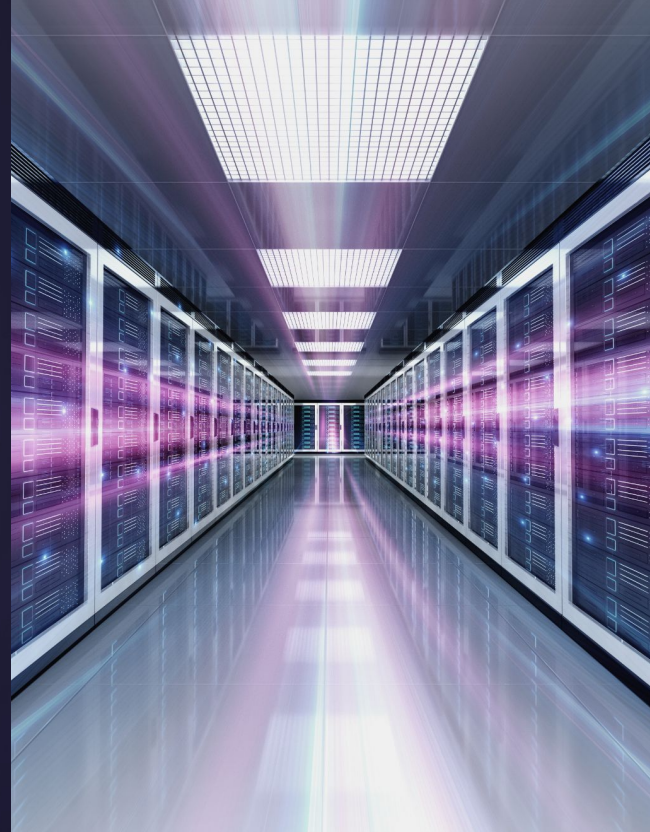

Developers

Photographs with developers working.

Abstract Tech

Images with abstract 3D renders.

Technology

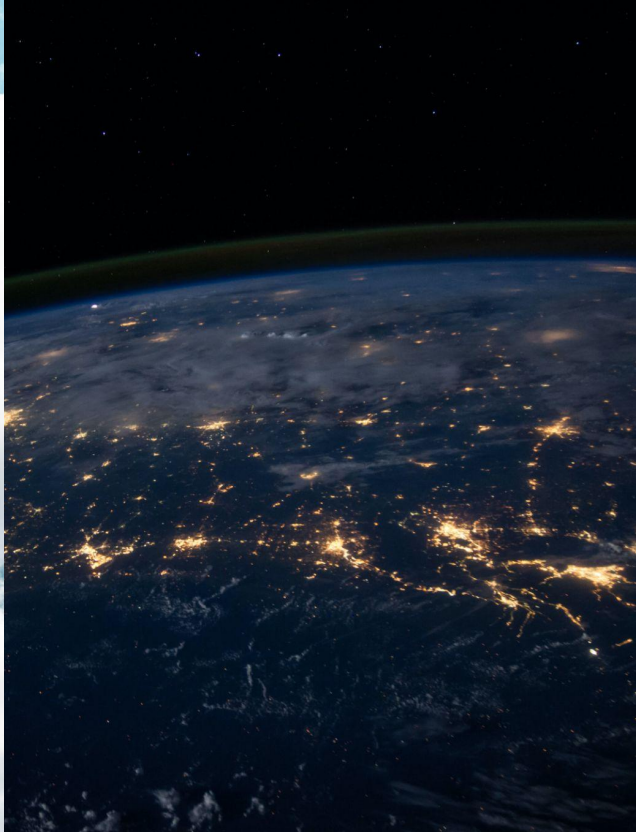

Photographs with server rooms, tech oriented images.

Achievements

Photographs with great accomplishments, often with tall buildings or great infrastructures built by people.

World

Photographs of endless physical spaces, that describe a state of mind.

Bright

Photographs with joyful, confident and bright people.

Typography

Our fonts are **Poppins** - headings and **Opens Sans** - paragraphs. This combination of fonts works good for us because of the easy readability and usability.

The contrast between the two of them gives us diversity and creative freedom.

1- Title - 20pt , paragraph - 6pt

2- Subtitle - 12pt , paragraph - 6pt

3- Title - 35pt , paragraph - 7pt

The above stated text sizes are applicable in Google / M. Office Presentations and Documents.

For all other visuals - the same proportions and size contrast between titles - subtitles - body - must be kept, regardless of the software used / dimensions and resolution of the design.
